TINY BUBBLES
BABY SPA BY AQUA PLAY

Forget your Baby's troubles...
Here comes Tiny Bubbles..

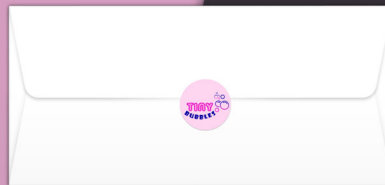

WHY NEED BABY MASSAGE...?

Giving a newborn a massage is considered an inseparable part of baby care and is an age-old tradition in our country. It is strongly believed that the ritual of an oil massage followed by a hot bath is a must to develop the infant's bones and also speed up his development.

- Gentle massage encourages the development of flexibility and co-ordination.
- It also increases oxygen and nutrient flow to the cells.
- It provides relaxation and also strengthens the immune system.
- Infant massage releases hormones which can assist in relieving discomfort from teething, chest and nose congestion, colic and emotional stress.
- And many more to add here...
