NotifyU IOS App(online restaurants , clothing system)

The core purpose of this application is to provide relevant data to consumers about franchises and brands they are interested in and notify them about the selected products. .

Conversion Between Hex, Binary and Decimal (Assembly Language)

Product Purchase System in Web

Online Shopping Store - using HTML, CSS, bootstrap, java script and php.

Hotel Management System in C language

September 2010 – December 2010.

This was basic C based command line project. Here user can check and allocate rooms available in a hotel

PROFESSIONAL PROJECTS:

Here is detail of some of my professional projects (live/in progress)

- **Well-kept Beauty**

Platform: Xcode 10.1 (Swift 3)

Enter in your personal notes for each product to monitor performance and preferences.

Keep a list of ingredients that you want to avoid aligned your health or allergy goals.

Keep a list of ingredients that you want to avoid aligned your health or allergy goals.

Create a skincare routine to know what products are working and in what order.

Receive an alert when each product in your collection expires.

Discover new and innovate brands, skin care professionals, along with advice and tips.

This is a client app, I worked on UI in auto layout for this App ,intercom chat ,InApp Purchase, on boarding flow for new users, and Firebase updates.

- **Krav Maga Pro**

Platform: Xcode 10.1 (Swift 3)

Its a client project I have done Updates in krave maga .which was already build in swift 2.

Krav Maga is the official martial art and reality-based, self-defense and defensive tactics system of the Israeli Defense Forces.

Their soldiers are men and women aged 18 to 51, so their fighting system focuses on techniques

Technologies Used: Vimeo API's, Google API's, Adding events to iOS Calendar App, Adding Reminder to iOS Reminders App.

Link: <https://itunes.apple.com/us/app/krav-maga-pro/id1176791564?mt=8>

- **Daily Quotes**

Platform: Xcode 10.1(Swift 3)

Its initial version was in Objective-C. I developed this app in Swift. And added some new feature in it. Daily Quotes App gives you collection of inspirational and motivational quotes of famous world authors and recognized personalities, you love and wants to know their sayings.

Technologies Used: Local Notifications, Google/Facebook Login, Image Cashing , SQLite

Link: <https://itunes.apple.com/pk/app/daily-quotes/id811256424?mt=8>

- **Drink Water Notifier**

Platform: Xcode (Swift)

Drink Water Reminder is a Health & Fitness app.You may see the Daily,Weekly and all previous details of water consumption with dates, time and MLs/OZs and get notified of Daily Water remainder and you can achieve rewards.

Technologies Used: Local Notifications

IOS App is not yet Live.

Link: android <https://play.google.com/store/apps/details?id=com.suave.drinkwaterreminder&hl=en>

- **Vagabond**

Platform: Xcode (Swift 3)

It's a client project based on maps and trackers.

I have worked on issue fixation and tracker module.

- **Sports Friends Hookup**

Platform: Xcode 10.2 (Swift 5)

It is a client project of Sports and event detail. User can view all live, finished and pending matches detail, live video streaming and scores.

Mile stone One for UI is completed.

Working on Api Integration.

- **Child Apps**

Platform: Xcode (Swift/Objective-C)

Technologies Used: Push notifications, In-App Purchase
