PROJECTS

KRA-iCMS (Kenya Revenue Authority - integrated Customs Management System) (03/2019 – 08/2019)

Project Description: Kenyan Govt Project deals with Customs management as in Cargo management, Tax, Licenses, Bonds, Accounts and several public services.

Currently iCMS system is deployed in three airports and working at its best. This system has replaced the legacy system called Simba. I have helped the project in going live without critical issues. Achieved zero-defect releases.

Tools and Tech used: Bugzilla and Agile Process.

Cerner – MedSuite (10/2017 – 02/2019)

Project Description: Cerner MedSuite is a project that handles hospital setup and helps hospital faculties to use effective application through which all the activities can be performed.

Established and ensured that the project teams are well connected and are up to date about the information. Ensured the defect management and reporting are done with no errors. Achieved zero-defect sprint releases.

Tools and Tech used: JIRA and Agile Methodology

ServiceNow – Web based application (Several Clients) (08/2015 – 10/2017)

Project Description: Several Projects built on Servicenow Platform.

Projects listed below –

RS Components version1 and 2

DWPIP (Department of Work Pensions - UK)

IE (Ireland Electricity)

BBC Aurora

UCLH (United College London Hospitals)

SS7 (SubSea7)

BEH (Barnet, Enfield and Haringey Mental Health NHS Trust)

NE (Natural England).

I have helped the project in going live without any defects end ensured smooth transition being an offshore co-ordinator. Ensured that all the UAT is complete without defects.

Tools and Tech used: Manual Testing, Servicenow, ITSM and HP ALM. Agile process and partial Waterfall used.

RECOMMENDATIONS

Aarti Thapar (Mentor)

Bavith was one of the trainees in my trainings. What makes him to stand apart is his attitude. He is humble with the willingness to learn. A growth oriented person with eyes fixed on the goal, but having a very gentle approach. A person who is reliable during crisis. His openness to help his team mates with all his resources amazes me. I wish him Good Luck always and these qualities will take him a long way!! Keep it up!!

Maciej Glod (Project Lead - UK)

I had a chance to work with Bavith in a few ServiceNow projects. As a tester he was able to grasp the overall functional design and the details of tested solutions very quickly. His support helped to keep the development process smooth and as painless as it could be. I can definitely recommend my colleague.

Pawel Pawelkiewicz (Senior Delivery Manager - Poland)

I had a pleasure to work with Bavith during four separate Atos ServiceNow projects. As a QA specialist Bavith was a great asset to us. His attention to details, professional curiosity and friendly attitude helped our team to improve the products and deliver projects successfully. He identifies and understands project priorities and focuses on the most crucial matters first. Dear Bavith, thank you for our cooperation. I really enjoyed it (professionally and personally) and I hope to work with you in future :).

Maureen Ojowi (Project Manager – Kenya)

It is my pleasure to write a Review for Mr.Bavith who I worked with for a couple of months him being a Quality Assurance Analyst for Atos on a project in Kenya that Atos was the Vendor and I was working as a team member from the client's side.

Mr. Bavith joined the Project as A quality Assurance Analyst midway but he was able to catch up and deliver excellent results. These can be attributed to his high aptitude therefore, he was able to learn and understand the processes quickly. Moreover In many instances while working on His Assignment he was proactive and thus went beyond what was required of him, pointing out issues that had been overlooked or bypassed by the others.

Furthermore He is an amiable person with good communication skills is pleasant and thus was able to fit in quickly and work with the others. For the time that I worked with him, his contribution was instrumental in ensuring that the project was successfully delivered. I recommend Bavith as a diligent worker, team player, proactive, dependable and with great communication and interpersonal skills.

Jack Wright (Senior Service Delivery Manager – US)

It was an absolute pleasure working with Bavith. As a team member or a leader, Bavith earns my highest recommendation. Bavith would certainly make an impactful and positive addition to any establishment. He is dependable, detail-oriented and extremely personable; allowing those around him to have fun, feel at ease and themselves in his presence. Further, he is intuitive to the needs of those around him and he is helpful. He is a connector and a fearless adventurer who would thrive in the fast-paced environment.
