Full-Stack Development

HOW ARE WE USEFUL?

With a team of professionals at my side, I can assure we would deliver nothing but the best. The team has an extensive hands-on experience in the realm of front-end and back-end development. With more than 15 years of experience in the fields of Development and Testing, we can assure that no stones would be left unturned.

PROPOSAL

Upon the project confirmation, the work will be scheduled on the following basis:

1. Prepare a comprehensive plan on the work to be accomplished, keeping the time-frame in mind.
2. Segment the project in multiple sub-segments and distribute the work amongst the team members at FrugalTesting.
3. Prepare trackers that'd be shared with the client to help them keep an oversight.
4. Deliverables, delivered as per the agreed schedule.

TECHNOLOGY STACK

- NODE.js
- ANGULAR.js
- PHP, JS, CSS, HTML/5
- C/C++, JAVA, PYTHON
- MySQL, RDS
- AWS, JMeter, JENKINS
