Bilal Ali Rashid Chaudhary
Wordpress
Pakistan

Dear Sir,

I've been a freelance developer on the WordPress platform since 2018. The past 2 years have not only given me comprehensive skills to create effective WordPress websites, so in 2019 I've founded WordPress agency named Webpigment. I've also established good business practices that have contributed to productive working relationships with my clients; I work hard to provide punctual product delivery and open communication.

- I aim for perfection and I'm eager to expand my knowledge and skill base, so I always look forward to new challenges.
- My love for Wordpress and the need to stay up to date has driven me to attend Wordpress Conferences all over Europe.
- I've also benefited from my connection to the small but growing WordPress community in Pakistan.

I produced innovative solutions to my requirements and delivered a website that looks and functions seamlessly. I hope to be able to hire me.

Thank you for taking the time to review my CV. I look forward to talking with you.

Yours sincerely,

Bilal Ali Rashid
