## WORK EXPERIENCE

### Senior Software Developer ERICSSON

11/2018 – Present

Noida, India

#### Achievements/Tasks

- Successfully implemented and integrated PayPal Payment Method, Device Protection Facility, International Roaming Facility, Dynamic Token Generation Facility and Watch TV Facility in the AT&T Telecommunication Webcare Portals (Selfcare / Customercare) using programming software like Eclipse, IntelliJ and programming languages like JAVA/J2EE Technologies and software development frameworks like Spring and Struts Framework, RESTful / SOAP Web Services.
- Followed Test Driven Development Approach as a Development Strategy, used Jenkins for CI/CD, Sonar for improving code quality & test coverage and Fortify for removing security vulnerabilities from the code.
- Mentored and implemented Agile/Scrum Methodology. Initiated and led the implementation of company standard documentation.

### Software Developer

#### R Systems International Ltd.

06/2017 – 11/2018

Noida, India

#### Achievements/Tasks

- Designed and Developed highly scalable, optimized and extensible MS Connectors which are basically Micro Services using OData services for Microsoft Dynamics AX. These connectors are ASYNC and SYNC processes.
- Implemented Single Sign-On (SSO) using OAuth 2.0 so that the Micro Services are authorized to communicate with Microsoft Dynamics AX/CRM/NAV systems.
- Implemented ASYNC (asynchronous) process which is XML based export & import process, scheduled to run at specified time intervals.
- Implemented SYNC process which is a call to REST API to exchange information in real time.

### System Engineer

#### Tata Consultancy Services

12/2014 – 06/2017

Noida, India

#### Achievements/Tasks

- Developed 'Shop4Ever Shopping Portal' using Struts 2.0 & Hibernate.
- Developed the BWL Utility Tool which serves as a central repository of all necessary information related to Blueworks Live tool data.
- Developed and enhanced views using HTML and CSS Framework and Controllers (using jQuery, Ajax & JavaScript) to connect web pages into the Data Model.

## SKILLS

Java 7/8 & J2EE Technologies

Multithreading

Design Patterns

Spring Framework

Struts Framework

Hibernate

Microservices

Web Services (REST/SOAP)

JUnit Framework – Mockito/PowerMockito

JavaScript

jQuery

Ajax

Angular JS

UNIX Shell

Oracle SQL

PL/SQL

Git Bash

Gerrit

Gradle

Maven

Sonar

Fortify

Jenkins

JMeter

SoapUI

WinSCP

Putty

Rally

JIRA

Confluence

Swagger

OData

Jersey

Groovy

OAuth 2.0

HTML

CSS

## EDUCATION

### B.Tech in Electronics & Comm. Engineering

Noida Institute Of Eng. & Tech, Greater Noida

05/2010 – 06/2014

## CERTIFICATES

Certified SAFe® 4 Practitioner (Issued by Scaled Agile Inc)

Oracle Certified Associate, Java SE 7 Programmer (Issued by Oracle)

MCSA: Windows Server 2012 - Certified 2016 (Issued by Microsoft)

Exam 412: Configuring Advanced Windows Server 2012 Services (Issued by Microsoft)

Exam 411: Administering Windows Server 2012 (Issued by Microsoft)

Exam 410: Installing and Configuring Windows Server 2012 (Issued by Microsoft)

## LANGUAGES

ENGLISH

HINDI
