

# Creating a VisualForce page which shows all the Accounts List and details in same page:

Functionality:

- ✓ All Account records List are showing and when click on a Account Name all the details of that Account displaying in the same Page Right side. Example: Here when I click on the “Alice Black” Name all the Account details showing in the right side.
- ✓ Also here have 7 Buttons.
  - 1> **Save Button**: when click on the ‘save button’ page save and redirect go to the Account page.
  - 2> **Save & Stay Here**: When click on the “Save & Stay Here” button page save and stay on this page.
  - 3> **Previous Button**: Use to go ‘Previous Page’ in Account Record List.
  - 4> **Next Button**: Use to go ‘Next Page’ in Account Record List.
  - 5> **First Button**: Use to back in ‘First Account Record List Page’.
  - 6> **Last Button**: Use to go ‘Last Page’ in Account Record List.
  - 7> **Create Account**: This button use create a new Account record.

Please go though the screen shot attachment to understand the scenario more.

The screenshot shows a VisualForce page with a table of account records on the left and a detailed view of a selected account on the right. The table has columns for Assistant, Asst. Phone, Clean Status, Department, and Email. The 'Alice Black' row is highlighted in yellow. The detailed view on the right shows fields for Other Phone, Account Number, Business Sales Status, Fax, App, Position Available, Password, Contact Owner (SUJAY GANGULY), Name (Ms. Alice Black), Account Name, Title (Botanist), Department, Birthdate, Region, Region Capitals, Reports To (View Org Chart), Lead Source, Mailing Address, Other Address, Mailing Zip/Postal Code, Level, Created By (SUJAY GANGULY), Last Modified By (SUJAY GANGULY), and Bussiness (Financial Planning Buyer).
