11	INSTITUTIONALS
12	LANDSCAPE DESIGN
13	CURRICULUM VITAE

Greetings! I am Arah Paula V. Leyco. I work hard, decent in managing things, enthusiastic to help other people to achieve something, love to learn new things where I can enhance and expand knowledge based on architectural designs, and meet new people while growing with the organization using ability to conceptualize and develop operational architectural solutions. Sharing ideas is really a wonderful thing where I may be able to employ creativity in designing processes along with excellent grasp on the details that are necessary to execute creative ideas.

For the past years practicing architecture and plumbing, I was involved in projects like furniture design, interior design such as, restaurant and store fit-out, office fit-out, office remodeling, residential renovation, Feng-shui remodeling and solutions, and others. I also got a chance to redesign a residential garden. I also worked with proposed designs of a training facility , hospital and a car showroom. I am also practicing my profession as a master plumber.

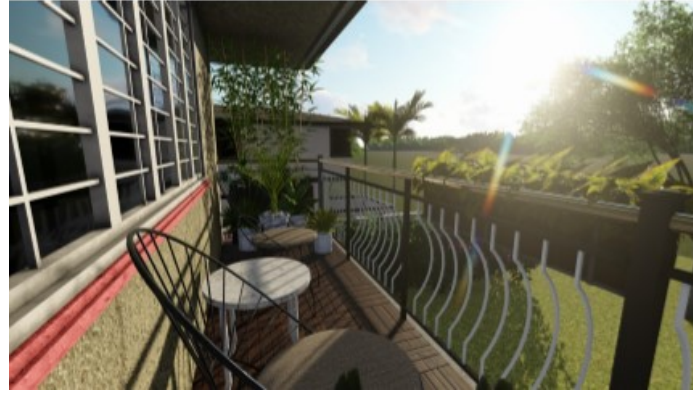

In spite of these experiences, I am still willing to learn more and explore every opportunity in front of me.
