Fantasy Popcorn League

Fantasy Popcorn League

Description

Welcome to scouting! Each year fundraising chairpersons like yourself start to plan budgets to support their annual pack activities. Gourmet popcorn sales offer an opportunity to raise as much as \$5,000 to \$30,000 in profits for our packs, troops and crews. Often we finish our fundraisers in less than 45-days clearing a path for our scouts to focus on outdoor activities for the remainder of the year.

The Fantasy Popcorn League app features a powerful Popcorn Calculator. The calculator will help you accurately plan and determine the amount (total cases) of popcorn you need in order to reach your fundraising goal. It all starts with a recommendation on the types and quantities to sell in order to reach your goal (profit and gross sales).

This app supports five main functions to help you create a successful fundraiser:

1. Setting Goals
2. Organizing Teams
3. Managing Inventory
