

Hi, This is Sandeep Londhe I have 5 years of experience in Android App Development, I can build your app. I already implement this kind of solutions to my other clients it will be fast implemented thing for me if you hire me, I will provide the best of my knowledge feature if i get the opportunity to have work for you. Let me know anything you would like to know about this app development. I can guide you for developing this app as well. I will Create an Awesome App Landing Page free of cost for your app as I already created for some of my clients.

Some of my apps for reference:-

My Latest App & Website:-

A Website & App Created for Uber Drivers to advertise local business on while driving within the pool of their passengers and reward program for drivers.

<http://ridesharepax.com/>

GetSnax is Referral and Shopping Site where drivers can sign up and get the shipment of the products box delivered to there address and they can ask there customers to buy from go.getsnax.biz using there shipment box number.

When customers buy driver get sales commission.

There are various categories of free and paid products available which drivers and offer to there customers.
