RESUME OBJECT

I'm a front end web developer with 2 years of experience. From the moment I produced "Hello World" in the console of my first application, I knew I was hooked into the world of web development. But software development has never been "just a job" for me, it offered an engaging challenge to continually learn and improve my skills in creating high quality web applications. What started as a simple "Hello world" has become a fully fledged passion that only gets more exciting as the years go by.

SKILLS

React.js

Next.js

React-Redux

React-Router

Bootstrap

Git

EXPERIENCE

Website For bodyBuilders.

Nathan Banq (<https://nathanbanq.com/>)

Website For BodyBuilders.

Based on the classic Nathan Banq web app, this is a web app that provides services for bodybuilders and to make inquiries about supplement and fitness routines.

Wrote a clean React code, integrating design, extensions and third-party apps according to web development plans. And also built and tested and deployed scalable, highly and modular software products.
