

The biggest mistake of my life was “to love”

PART 1

Friends, what is love? You know it well. Love is also of two types. One is that when we love our life, mother, father, brother, sisters and the other is that when we love a girl. We feel very good when we fall in love with a girl. But after gaining love you probably will not know about the breakdown. I also loved a girl but she has got married and is going to be mine. I am saved from death because of that love. My name is Ajay Pratap and I am now working as a software developer for an MNC company in Bangalore. Recently, I have saved my life to die from a deadly disease. Actually, what happened to me was that I am going to tell a story whose name is "The biggest mistake of my life was" to love ".

Once, I and my four childhood friends go out for roam, when I had come to my home after taking leave from the company. I was on my bike and my four friends were sitting on their bike by 2-2 people. We went out from home at 8 o'clock in the night and do a lot of fun because I came to my home almost a year later. It was only 1 o'clock in the night when my father called me for come home soon. I said to everyone that now we enjoyed too much & also party has over, so now I have to go home and then we decided to go back. On the way, there was a bridge. I didn't climb on the bridge but my friends did.

It was just 2 o'clock in the clock. Papa was waiting for me. When I didn't reach home until 3 o'clock, my father raises brother and says that do a call to Sonu because he hasn't come yet. Bhaiya tried to make a call to me but my phone was not reachable. Bhaiya phones to my friend and asks that "Where is Ajay? His phone is off". After this, my friends also tried to call me but my phone was continuously off. Now the anxiety of the family started to grow. It was 6 o'clock in the morning and they had no news about me so papa phoned to a maternal uncle, who is the owner of a very large jewellery shop and tells the whole story that Sonu had gone for roaming with his friends at 8 o'clock last night but has not come home yet.

Next month my marriage was about to happen. So, all were very happy but all had upset now because they didn't know any information about me & also my phone was off. Mama Ji thought that may be, my accident would happen. Therefore, he goes near to the bridge with brother and my four friends, from where I was separated from my friends but when they don't get a clue then he decided to go the police station with brother for FIR about me. He says that my bhanja is missing from 2 o'clock last night. Please find out my son, early. Then the police started its investigation.

First of all, the police call to my four friends in the police station and ask some questions. When Ajay Pratap had gone to roam with you last night, then something would have been told. When my friends also didn't know anything about me what they said to the police. The police then trace my phone and try to get the call out. During the investigation, they traced my phone, my phone was found in Ranchi and from the call details, it was found that the last call made from my number to Dad only. When the householders got this point then they became more upset. He thinks that last night he went to roam with his friends, so where will Sonu go now? But when the Bhaiya thinks a lot, he remembers that Sonu had told me a few days ago that I have to go to Ranchi. But I didn't tell the reason to Bhaiya to be deprived. Bhaiya thinks that my brother may be in trouble, so he decides to go to Ranchi immediately. They think that I will find Sonu in Ranchi. So, first, he calls to police for knowing detail information. But the police

said, "We have not got much information yet, as much as I know, I told you. Don't worry, we will find out your brother."

But the concerns of Bhaiya and father was increasing, so both of them decide to go to Ranchi thinking that perhaps there will be no other way to know about me. But as soon as they left home, someone calls to my father & tell about my present condition. But after talking from that unknown person Papa get into trouble. My father is about 60 years old and he is a BP patient. Now, when the condition of the father starts getting worse, the Bhaiya stops the train by pulling the chain and the he takes the father to the nearest hospital. After the treatment of the doctor and the medicine, the papa gets cured. But even after asking the Bhaiya so many times, Papa doesn't say that what the matter on phone was. Now the anxiety of Bhaiya was increasing. He was thinking that one side, my brother is missing and other side Dad is not telling anything. He again takes the train and reach to Ranchi. It was about 6 o'clock in the evening that my one of the friends phones to his mobile and he tells that condition of Ajay Pratap is very bad and he is now admitted in "Radium Cancer Hospital". Now the worries of Papa increased. Then Papa talks to my friend and asks for his address and thinks to meet. But the friend who phoned him lived in Delhi. So, he tells my father that please you go to the hospital as soon as possible, I will also reach Ranchi in 2-3 hours. Then the father asked him, son how did you know what happened to Ajay? But, he refused to say that Uncle, Ajay Pratap has forbidden me. When you will arrive at the hospital you will know what has happened after all? Here, when my childhood friends know about me, they also go to the airport but they don't get any flights for Ranchi that day. Then they decided to go out of Ranchi by their own car.

It was 10 in the night that the police calls to Bhaiya and tells that your brother's phone is in "Radium Cancer Hospital". He said to the police that we have just received this information from Ajay's friend and I am going to the hospital with my father. Now you stop your investigation, when we will need your help, then I will call you. After talking with police, he reaches to the Hospital. Now, they were thinking how we will find Sonu in this large hospital? Then they start to search for me. First of all, he goes to the administrative division of the hospital to find my name, whether Ajay is admitted or not, but they couldn't get any information about me from the administrative division. Then they go to the emergency department, but from there they also couldn't get any information about me. He knew the number of my bike, so he went to the bike stand and he got my bike & he had completely convinced that I am in this hospital. Then, Bhaiya call my friend, who gave this information that Ajay is admitted in the hospital, but his phone was constantly busy, due to which he couldn't talk with him. Then they think to search for me from my photos. Unfortunately, there were not even single photos in his mobile. So he downloaded my photo from Facebook and then with the help of that photo, they will become able to find me. They found me in the emergency department. Now, Dad had understood that why did he take so much time to find Ajay because I admitted here with the name of Anjay, not Ajay. As soon as my Dad & Bhaiya was reaching towards me, my friend Satyam Singh comes from Delhi and he refuses to go inside. Papa outside from the door was thinking that what will happen with Sonu after all. They think last night Sonu went with his four friends for roaming and has not returned yet and even though he has changed his name, he is admitted in the hospital. When my father requests to the Satyam to go inside then, Satyam lets them go inside. When they come inside the room, then find a girl near my bed.

PART 2

Papa & Bhaiya come to me first but, I was unconscious, so both of them ask the girl who are you and what has happened to this boy? She says that now Ajay Pratap is in good condition, after few hours, he will get up. When Ajay Pratap will get conscious then ask him only because he has refused to tell what happened with him. Then the father goes to the doctor and the Bhaiya asks that girl. She was a very beautiful girl and was married. When he asks her name, she tells her name is Anjali Suman and says that I work in 'Food Corporation of India (FCI)' in Ranchi. While the conversation was going between Bhaiya & Anjali, then suddenly Satyam comes & sit nearby Anjali. After seeing them, Bhaiya thinks that maybe they are husband-wife, but he does not remove this doubt. Now the conversation starts between among them. Bhaiya asks the Satyam, about name & job? He tells them that my name is Satyam. I live in Delhi and I am a software engineer. He again ask from how long time you both know my brother? Anjali explains that when your brother had come to study in Newton Institute of Technology (NIT), we know him but Bhaiya says that he hasn't never told me anything about you both.

On the other hand, the doctor tells Papa that your son has been operated and he is good now. When Papa asks that what has happened to my son, then the doctor tells the doctor that your son had cancer. It was God's grace that we were aware of the time that he had cancer and we could save him. By listening to this, Father falls on the floor.

Here, Bhaiya asks the Anjali and Satyam ask about my condition. Then Anjali says that I am responsible for the present condition of your brother. He felt very strange hearing this. He asks to tell them the whole thing. Then Anjali tells him that when he had come to study in NIT, he was a different kind. She explained that he used to think everyone will like him, but Bhaiya, you know that it doesn't happen. NIT students come from almost everywhere in the country. Your brother was very intelligent in studying but he was completely ignorant about this world. They used to take ranging of seniors, juniors in that college too. He was very naive about people. His classmate used to take great advantage of this. His college friend also used to enjoy with Ajay but I did not like it at all.

Bhaiya asks the Satyam, about Anil Chaurasia and Aryan Dubey whether you know them or not? Then Satyam tells him that Anil and Aryan were good friends of Ajay Pratap. Bhaiya knew only my two college friends because I had told at the beginning in my house that I live here with Anil and Aryan. He then asks Satyam if they are good friends of Ajay, then why didn't they come so far? You and Anjali have come. Satyam tells him that both are in the USA nowadays. Recently, both of them got an offer to go to America from their company and it takes a lot of time to come from America to Ranchi. When I was sleeping, Anjali, informed that Ajay Pratap's condition is very bad and he is now admitted in "Radium Cancer Hospital". Then I called you and immediately took the flight.

On the other hand, after on conscious Papa asks the doctor, I do not know why such a big thing that my son kept hiding from me. Next month he will get married and today he is in this condition today. Then the father comes to me & sits nearby me and waiting for me when my son will get up.

Here, Satyam tells Bhaiya that Ajay had fallen in love with a girl in college. When Bhaiya asks about her, Anjali tells him that she was me. His classmate used to fun with Ajay. Ajay loved sme from the starting day in college life. One day, he purposed me that "I like you". I didn't love to the Ajay but I accepted his proposal. But with the passage of time, I was very impressed

and I also fell in love with him. Gradually our love was growing. But our classmates were not feeling well and they wanted to break this love story but their efforts were going to fail. Satyam tells Bhaiya that he had become very disturbed he told me that "I will leave this college or I will succumb because I do not want to live in such an environment". Then I tell him that after your departure, who will fulfil your parent's dream, then he left the idea of suicide, and since then he was contemplating himself in the condition that he was studying. Since the Anjali had come in his life, her studies were getting better. Then Anjali says, "We got a job while studying together. Ajay Pratap's job got placement in Kolkata, I got in Noida and Satyam got a job as a software engineer in Delhi". Bhaiya felt that Anjali is saying something wrong because she had earlier told that she does work in the FCI and now she is saying that she was a software engineer. But he does not ask to her anything about this.

While the conversation between among three was going among Bhaiya, Anjali and Satyam, Aman Verma, who is my childhood friend and lives in Patna, phones to Bhaiya and says that We have come to the hospital. We are looking for you, where are you? He says that you come to the emergency department in room number 17, I will be here at bed number 245. Now, my four friends come. They come to me first but I was unconscious, so they ask my father about the situation. After talking a few times to Papa, they all come to Bhaiya.

PART 3

My friends noticed that the girl who was sitting there, we have seen her. They all know that her name is Anjali, but not sure. Still, to remove his doubts, Aman asks Anjali about her name. Anjali was not identifying my friends but my friends knew her very well because I had told my friends that I love a girl whose name is Anjali Suman. Since there is so many people had come in that room, so Bhaiya goes to the ground with those people and Satyam and Anjali.

Now Bhaiya asks the Anjali that when you all got a job during campus placement, then what happened. Anjali tells him that after separating from each other, we always talked on Skype and Ajay Pratap used to meet me on holiday. Since there was too much work pressure in my company, so I left the job after working for two years.

On the other hand, the doctors come to the room to check up. After check-up, he tells Papa that now Ajay Pratap is absolutely fine and he is going to get very soon. After listening to this, Papa became happy & immediately comes down to Bhaiya to say that let come with me. But, Bhaiya replied him that papa, you go. We will come after some time.

After Papa's departure, Bhaiya ask the Anjali, what did you do after leaving the job? She replies that for a while after leaving the job, I used to sit in the home. Then I thought of doing a government job and after studying a year well, I got a job in FCI and I have been working well for about 2-3 years. Now, Bhaiya trust on Anjali. She tells the Bhaiya that after getting a Govt. job, my family started to think about my marriage. So far everything was going fine. I and Ajay, love each other after 5 years of leaving college. But my family didn't know that I love Ajay. Since my papa started to search a good boy for me, so I said papa that I love Ajay & I will marry him. One of my friends, whose name is Shyam Kishore stood there, hear the words of Anjali and said, "Bhabhi Ji". Bhaiya thinks that might be Anjali feel bad after listening "Bhabhi Ji", so try to complete their conversation soon.

Bhaiya asks my four friends, did you know all these things about Anjali & Ajay? Then Manish Kishore, who is the brother of Shyam Kishore, tells him we are the friends of Ajay since childhood & knew this love story. Then Bhaiya does not ask Anjali ahead of anything and asks the Manish. He tells him that the father of Anjali done marry his daughter with Vivek Suman because they consider old customs and believe that marriage should be in their own caste, even if it does not do anything for it.

Now, we all had reached the Ajay. I woke up after getting full treatment & saw that papa is here. I want to hide the information about my cancer & treatment, I changed my name from Ajay to Anjay in this hospital. Again I become unconscious. The doctor knew that Ajay is all right and he had understood that I am not interested in talking to Papa right now so she sent the father to bring some medicine.

I woke up & I noticed that Papa is not there & my friends are here. First of all, I saw to the Anjali. She comes to me and asks me how are you feeling now? Bhaiya & my other friends who were stood there ask the same question. I replied that I am fine. Bhaiya asks me two days ago, you all went to roaming & your health was good then suddenly what happened to you?

First of all, I said sorry to my Bhaiya because I haven't told him about my illness till before treatment. I tell, "Bhaiya, I was scared that if I will tell you that I am a cancer patient. Probably you will tell father. Dad is also suffering from their BP problem. When papa will get this information, what will happen to him? So, I hide this information." Then Aman tells me, "Ajay, we are your childhood friend. So, you could tell us." I also say sorry to my friends and say that I had hide all about this from you because of my father. You live in the same city. So, probably If I told you then Papa also got this about my disease. Only Anjali knew about this disease. I never hide anything from her. Bhaiya asks to tell me, how did you get cancer?

PART 4

I told Bhaiya, the reason for this disease is my love. Bhaiya knew everything about my love, but he wanted to know from me. So, he asks me to say something about your love. I reply, "Bhaiya, when I went to study at the Newton Institute of Technology (NIT), I met a girl whose name was Anjali. After sometimes, I fell in love with her. We loved each other even getting a job in a different location. But last year Anjali's father done her marriage to the boy named Vivek Suman.

On the other hand, Papa comes with medicines and sees in the room from the door that the conversation between Bhaiya & me is going on and I am absolutely fine. Perhaps he had also understood that I am not interested in talking with Papa right now. So he goes down and thinks that when the conversation will end, he will call me then I will go.

Bhaiya asks to tell me what happened after Anjali got married? I replied, "After the marriage of Anjali, I had completely broken. I didn't feel good in any job. That's why I often used to make mistakes in the company's work. Boss used to punish me. I left that company and started searching for another good job. Now, I had lost Anjali as well as my job. I started drinking drugs, tobacco and alcohol to forget her. After a lot of effort, again I got a job of a software developer's in an MNC company in Bangalore. After working in the company, I used to go to a "Youth club" where I daily eat drugs & tobacco. I tried to forget Anjali but I never forgot her. Consuming tobacco consistently began to worsen my condition. Once I went to the hospital for

a check-up, then the doctor told me that Ajay Pratap, you are suffering from cancer disease and now it is only in the first phase. Now you can get rid of this disease. Once I was sitting in my room and thinking about Anjali. Then I phoned her. I told her about my cancer disease. She said if anything happened to you, then I will die. Anjali explained a lot to me and said that you have to complete the dream of your parents, so you should forget me completely & focus on your goal. She promised me that I will do your treatment. After talking with Anjali, I started doing my work very well. Bhaiya, after a few days I came to know that Papa and Mummy are thinking about my marriage. I thought that the situation will change after marriage and I will become happy. Anjali was getting my treatment, so she knew when my operation would be done. Even when I came home, she also asked me. I and Anjali jointly made a plan for operation without telling anything to any family member. That's why I went out to roam with my four childhood friends in the night & I separated from my friends in the way of home (around that bridge) and got admitted to the hospital."

Now, Bhaiya had totally understood about me, so he called father and said Sonu wants to meet you. Dad comes to me and I bow to papa. Papa hugs me with love, so I feel that today I got all the happiness of the world again. After that, all my friends said thanks to Anjali because only due to you today my friend has survived again. Bhaiya invited Anjali to come with husband on the occasion of my marriage. After that, Anjali and Satyam went to their respective homes. The next day when I got into the condition of walking, I came home with my father, brother and my four friends.

The End
