

NOSTALGIA RETRO FRESH

THE 1981 BAR

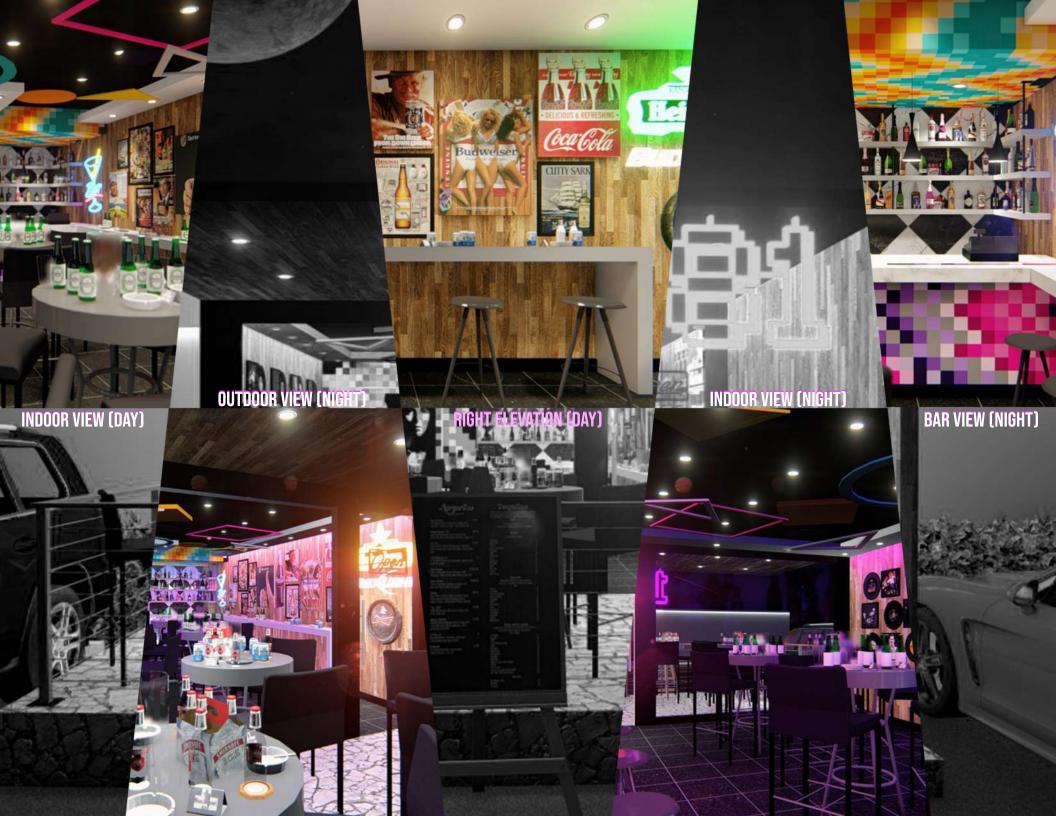

A daytime look of my 80's Retro themed proposal of a 60 sqm. bar renovation around Taguig.

Creating an disco vibe through pixels /squares of color as the focal eye catcher and a hint of light oak wood finish to create a sense of balance and calm. And at night the focus turns to the neon lights which fancies the mood of the bar attracting a newset of costumers by sun d o w n

Transporting the costumers to the 80's as the main goal creating an experince of nostalgia for those who lived it and a fresh

CHILDREN'S CANCER

Designed to debunk the cancer patient's stigma of a hospital which commonly symbolizes death, a sense of segregation and sadness to their eyes mind. I proposed a hospital specializing in treating cancer with a hospice providing not only treatment but also a place to stay for the patient's family to provide a sense of h o m e

Children's Cancer Center

Through architecture I designed the place to create a sense of playful, breathable and free experience for the kids. Stimulating the children's brain and senses to provide a helping hand and boost every patients treatment and to create an aura a community and a home within.

ARCOVA Metro East

The design proposal for Arcova Metro East is to create a sense of light, comfy and clean feel to the costumers. Also with an eye catching experience through lights and color selection reeling in more costumers through design. Thus the color white and the material selection of light oak wood finish.

DAISO MARKET MARKET

Here's a look of my design proposal for Market Market's Daiso store renovation. Maximizing space through open ceiling with the wood trellis design representing the rising sun as an accent of playfulness and texture attracting more costumers to the warm and welcoming Daiso branch.
