

School of Leadership Spiritual Fitness

Everton Weekes

Hello! everybody. Jesus. I'm excited to be here. Mama! Mama! mama!

My goodness! my goodness! Good to see all of your family. Good to see all of you. Glory, glory, glory, glory. My God, my God, Jackie. Good to see Denise Adams. Good to see you. A woman of God. Good to see you. I'm excited for tonight. Whew. Jesus is Lord.

Boom. All your ways you are so perfect. Oh my God. My God labor pastor Ron. Good to see you.

You were perfect. My goodness, my goodness, my goodness. I'm so excited to be here tonight with you. We're talking about leadership, school of leadership. I just love the topic of leadership. Friends say it's good to see you, how you're doing, and I'm just excited about this topic, and I'm glad that you joined me. In this song and this journey and leadership and the way we're talking about spiritual fitness, spiritual fitness, and leadership has to be in a passion of mind.

I've been pastoring for a number of years and I've studied with great leaders. And I said that leadership influences nothing less, nothing more. It's the craving. I've every boss, you hear me? Leadership influences nothing less, nothing more. It is the craving of every boss. What'd you hear me today?

Many people have been asking for raise, asking for promotion, asking for all kinds of things, but I've learned some things that if I grow up my leadership skill, My followership would also increase when my lists ship rate tin is increased. This is solely my impact. Are you following me here? So we might follow a ship?

Yeah. If I increase my leadership abilities, it's affect everything in my life. I said leadership is in front of us. Nothing less, nothing more. Everything rises and falls. And leadership is the craving of every boss. He, that is a craving of every block. Okay. Every boss looking for someone that can lead is the dream of every parent. Yeah. I'm I'm, I'm a parent and my father, I fought

children. And my dream is to see my children become men and a woman of influence. And if you're a parent, you know exactly what I'm talking about.

I said it is the, it is the dream. It's the, it's the dream of every parent. It is the longing of every pastor. Is the lung enough of a past. I've talked to thousands of pastors all over the world. And one thing to always talk to them about: how can I find leaders? How can I raise leaders? How can I grow leaders?

So it is the longing of every pastor nation rise and fall based on leadership. That's the problem in Africa today? The problem in Africa is it's not a poverty issue. It's a leadership issue. I mean, I will sit in Zimbabwe years ago and show me that a beautiful Hill in Zimbabwe and gold was coming through it.

Okay. But it was owned by the Chinese. What happened there? Leadership the African leaders set up their country for, for peace of some pirates. But when you have, I have leaders, when you have strong leaders, godly leaders, I could sit leaders that are fit spiritually. You can do awesome things for God. So that Africa I've been so Africa, um, Well in South Africa in October, I love Africa.

You mean Africa in Zimbabwe and South African October? My goal is to go there. I want to just to find leaders to find little eclipses and help strengthen their wings so they can fly and become all that God called them to be. I told him God, he has to go. And, um, I'm asking God to send me to some tough nations, give me some of the most difficult people criminals and with the help of the Holy ghost, I feel good.

Help them change their thinking, help them prophetically to locate their giftings, help Polish their giftedness. And you could see a little acorn of potential become a mighty Oak tree right here. Me here. That's my dream as a pastor. Aye. Aye. Aye. Aye. I'm going to, my strongest gift is leadership. I've crossed it up.

I will give a 30 minutes audio transcription within 2 hours with proofreading.
