Software: Illustrator, Photoshop  
Size: A4

Software: Illustrator, Photoshop  
Size: A4

### POSTCARD

These postcards were designed by taking inspiration from the beautiful Blue Pottery of Jaipur. It was made in six different colours and patterns.  
Software: Illustrator, Photoshop

### BROCHURE

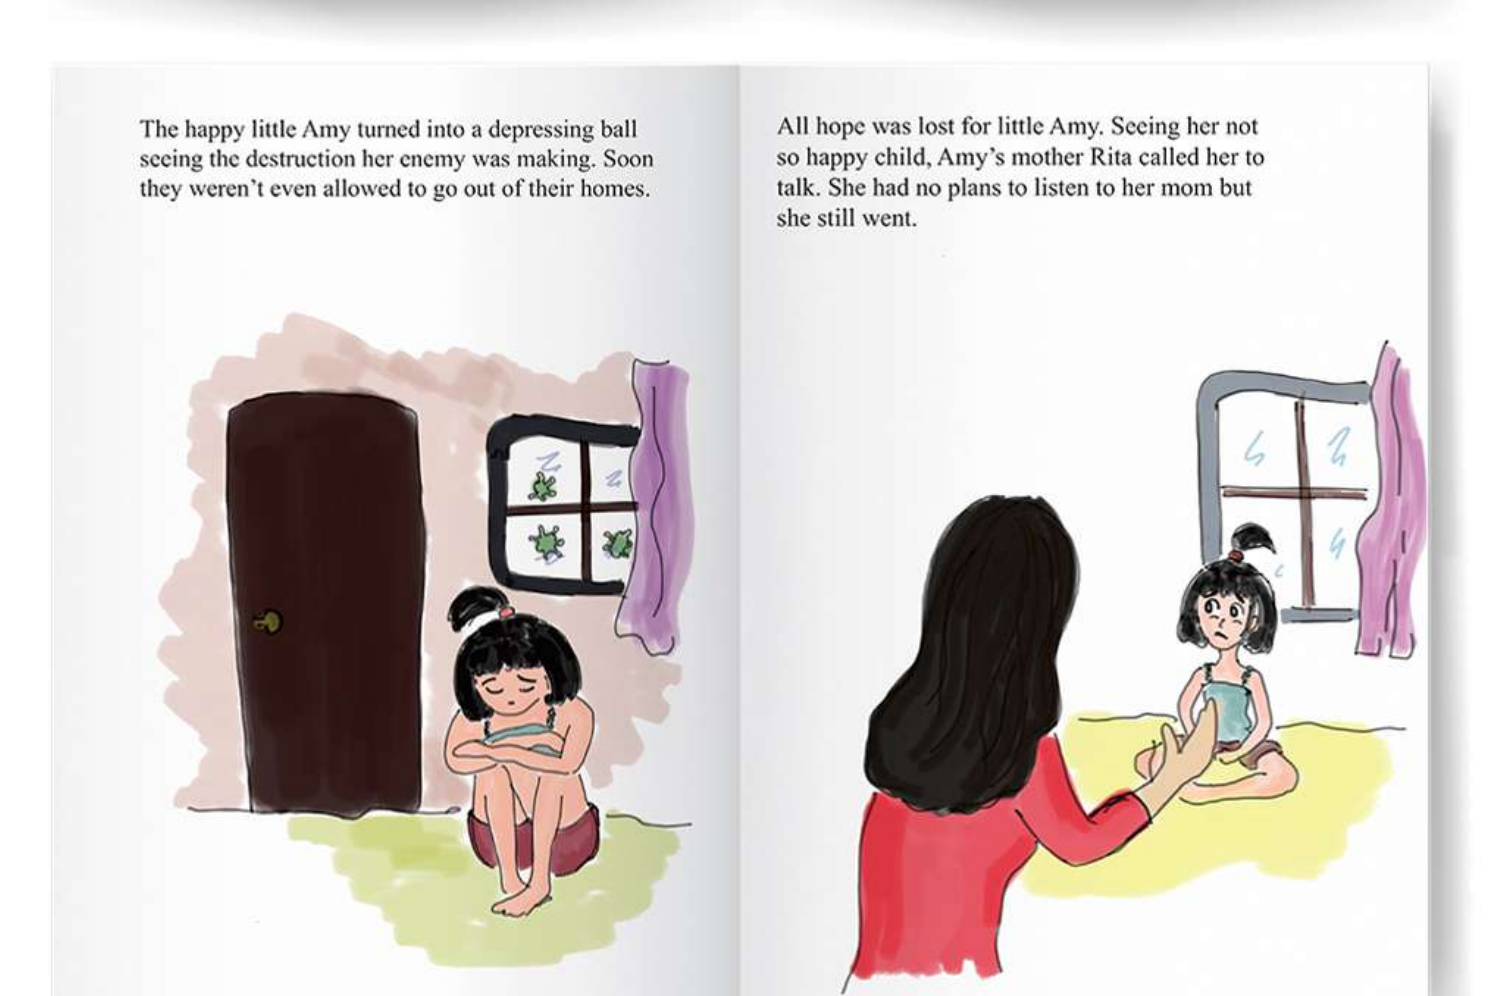

This was a brochure designed to market the product that was designed for the subject Design Process. It is basically a portable wardrobe organizer. The colour palette for the brochure was inspired by vintage colours.  
Brochure type: Tri-fold  
Software: Illustrator, Photoshop

Software: Illustrator, Photoshop

### DIGITAL DRAWINGS

Three digital portraits drawn with the help of Wacom Tablets. The first one is a line drawing, the second one is a colour portrait, and the third one is a black and white portrait.  
Size: A4  
Software: Photoshop

### SPORTSWEAR DESIGN

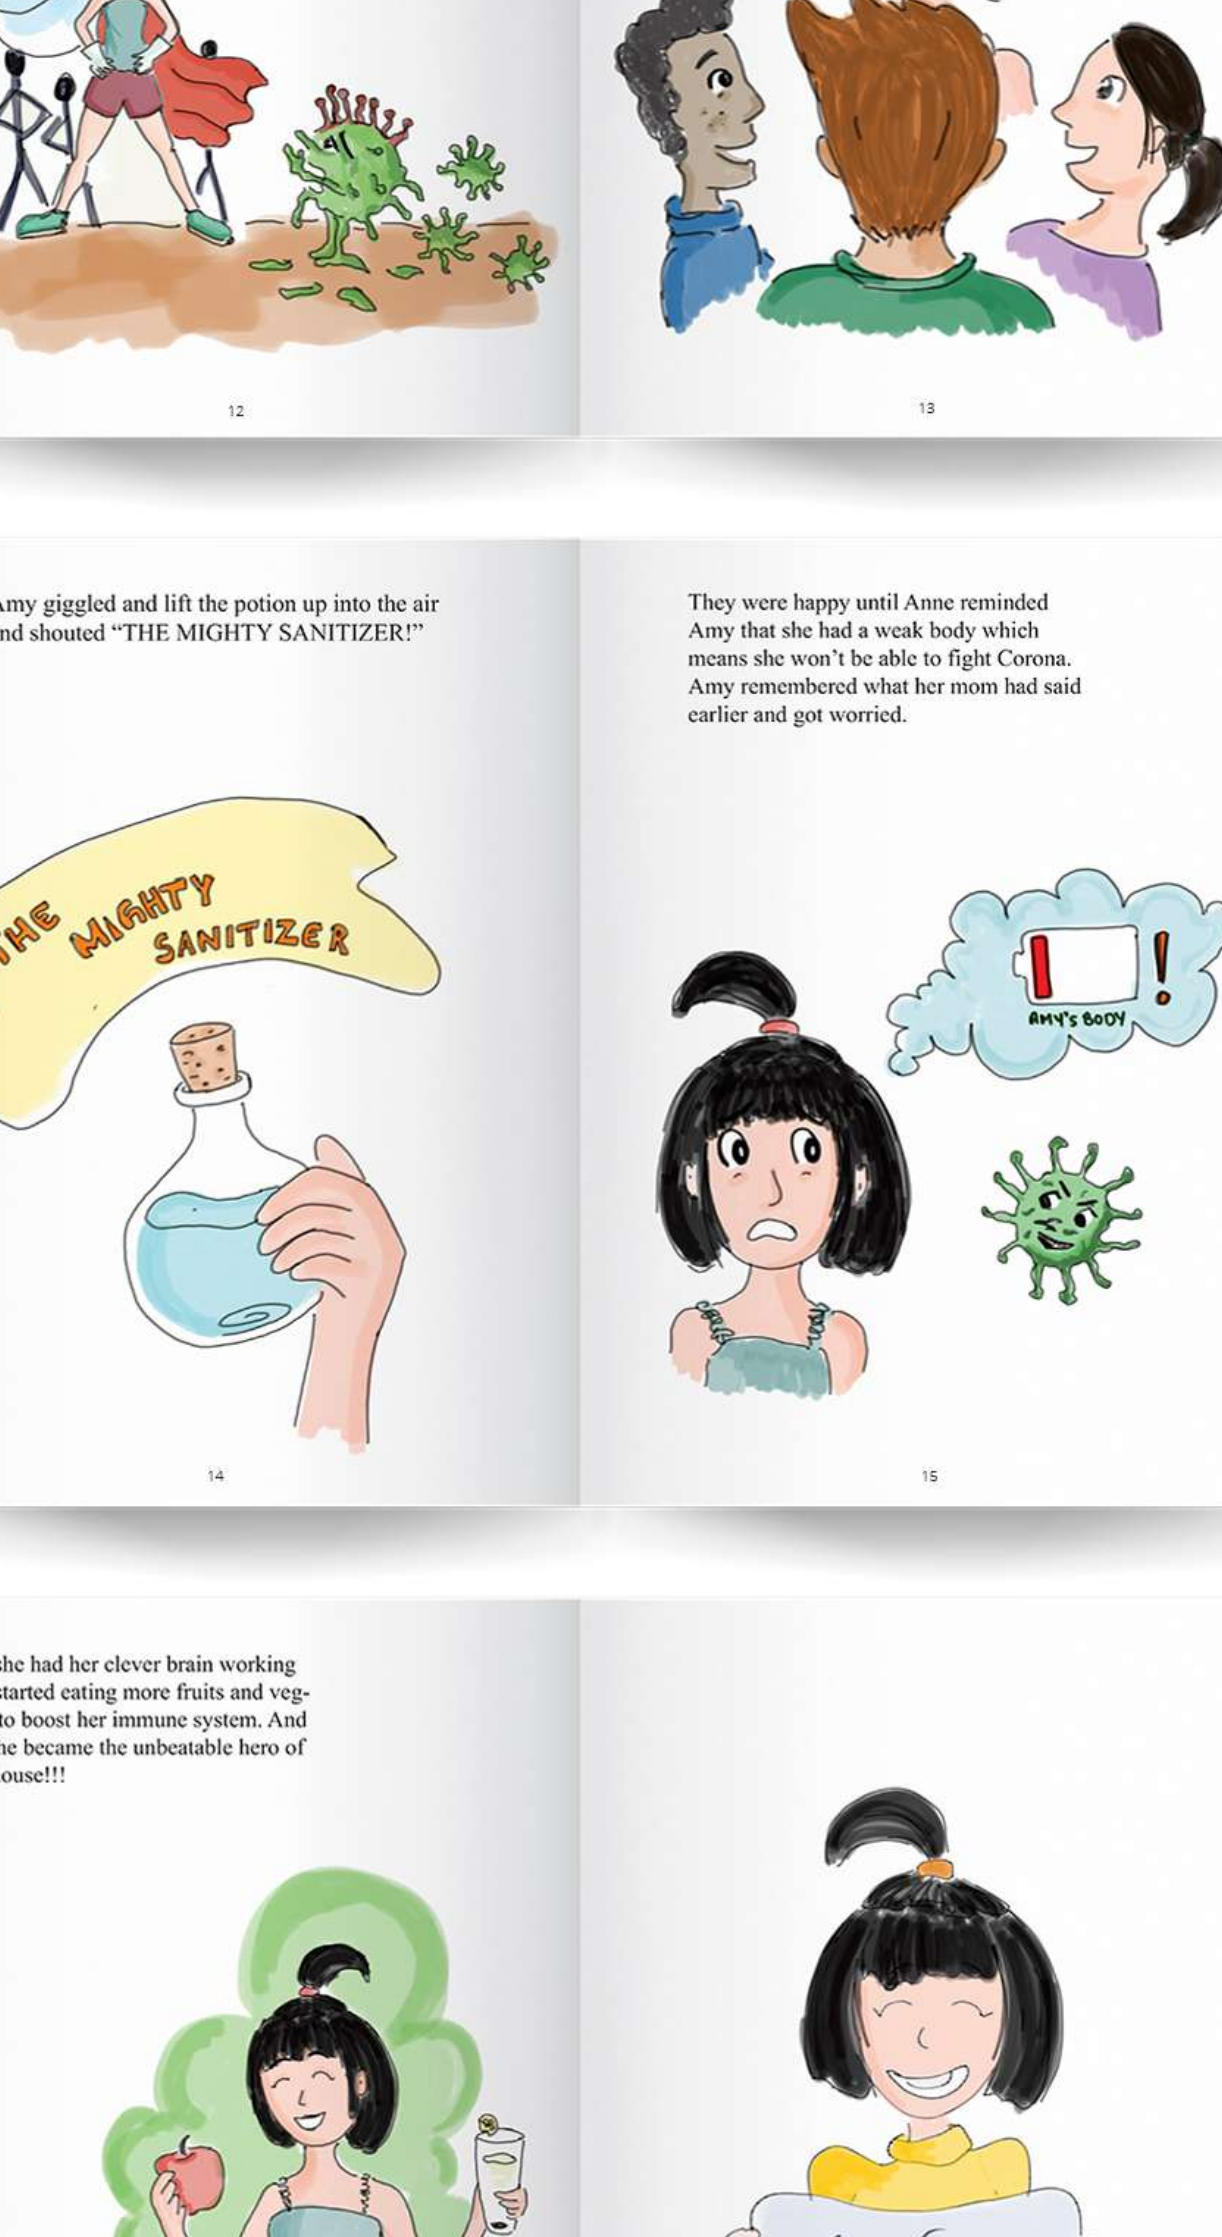

Apparel: Sportswear  
Size: A4  
Software: Photoshop

Both of these garments were designed as part of the Deepening subject.  
Apparel: Sportswear  
Size: A4  
Software: Photoshop

### CHILDREN'S STORYBOOK

Digital Storybook for kids from the age Three and above concentrating on the Corona situation and trying to make the kids understand some facts about the virus. It also points out the precautions that has to be taken by them through pictures and a fun storyline.  
Software: Autodesk Sketchbook, Illustrator

Eight-year-old Amy was living the best life with her wonderful family and friends. Everyday was a good one in Amy's life, often filled with adventures.

But suddenly one day came a villain crawling into the lives of Amy and her town. His name was "CORONA" just because he had a stinky crown on him. It was definitely not a good crown.

Before Amy knew, Corona was making his way towards the whole world with his evil laughter and dirty habits.

The little Amy turned into a depressing ball seeing the destruction her enemy was making. Soon they weren't even allowed to go out of their homes.

All hope was lost for little Amy. Seeing her not so happy child, Amy's mother Rita called her to talk. She had no plans to listen to her mom but she still went.

Rita told her that Corona was not the biggest enemy that they have faced. Corona was just a younger sibling of the other deadly viruses like SARS and MERS which happened decades back.

Rita also reminded that there was nothing they couldn't defeat if all of us put our heart into it together. Saying this Rita handed over a secret potion and whispered something in her ears.

Rita also reminded her that in order to fight Corona Amy's body should also be strong enough which means she had to eat healthy.

Amy had no idea what Rita was talking about! That's when it hit her. It wasn't the end of anything and Amy knew how to fight the tiny and evil Corona.

She learned from her elders that Corona couldn't survive in clean environments. So Amy along with her family washed hands and took care of their surroundings, with the help of her secret potion. She made sure to use the secret potion whenever she had any conversation with anyone.

Amy and her sister Anne started making masks for everyone in the family and for their whole town. Amy also learned that Corona couldn't catch people if they kept a safe distance from each other.

She started calling all her friends and asked them to spread the message. Together they began their epic battle against Evil Corona.

Slowly they rose higher than the power of Corona and became a part of the future superhero squad to save planet Earth from the Evil Corona.

But Amy's friends got really curious about her secret potion. So they asked her what it was.

Amy giggled and lift the potion up into the air and shouted "THE MIGHTY SANITIZER!"

They were happy until Anne reminded Amy that she had a weak body which means she won't be able to fight Corona. Amy remembered what her mom had said earlier and got worried.

But she had her clever brain working and started eating more fruits and veggies to boost her immune system. And so, she became the unbeatable hero of her houses!!!

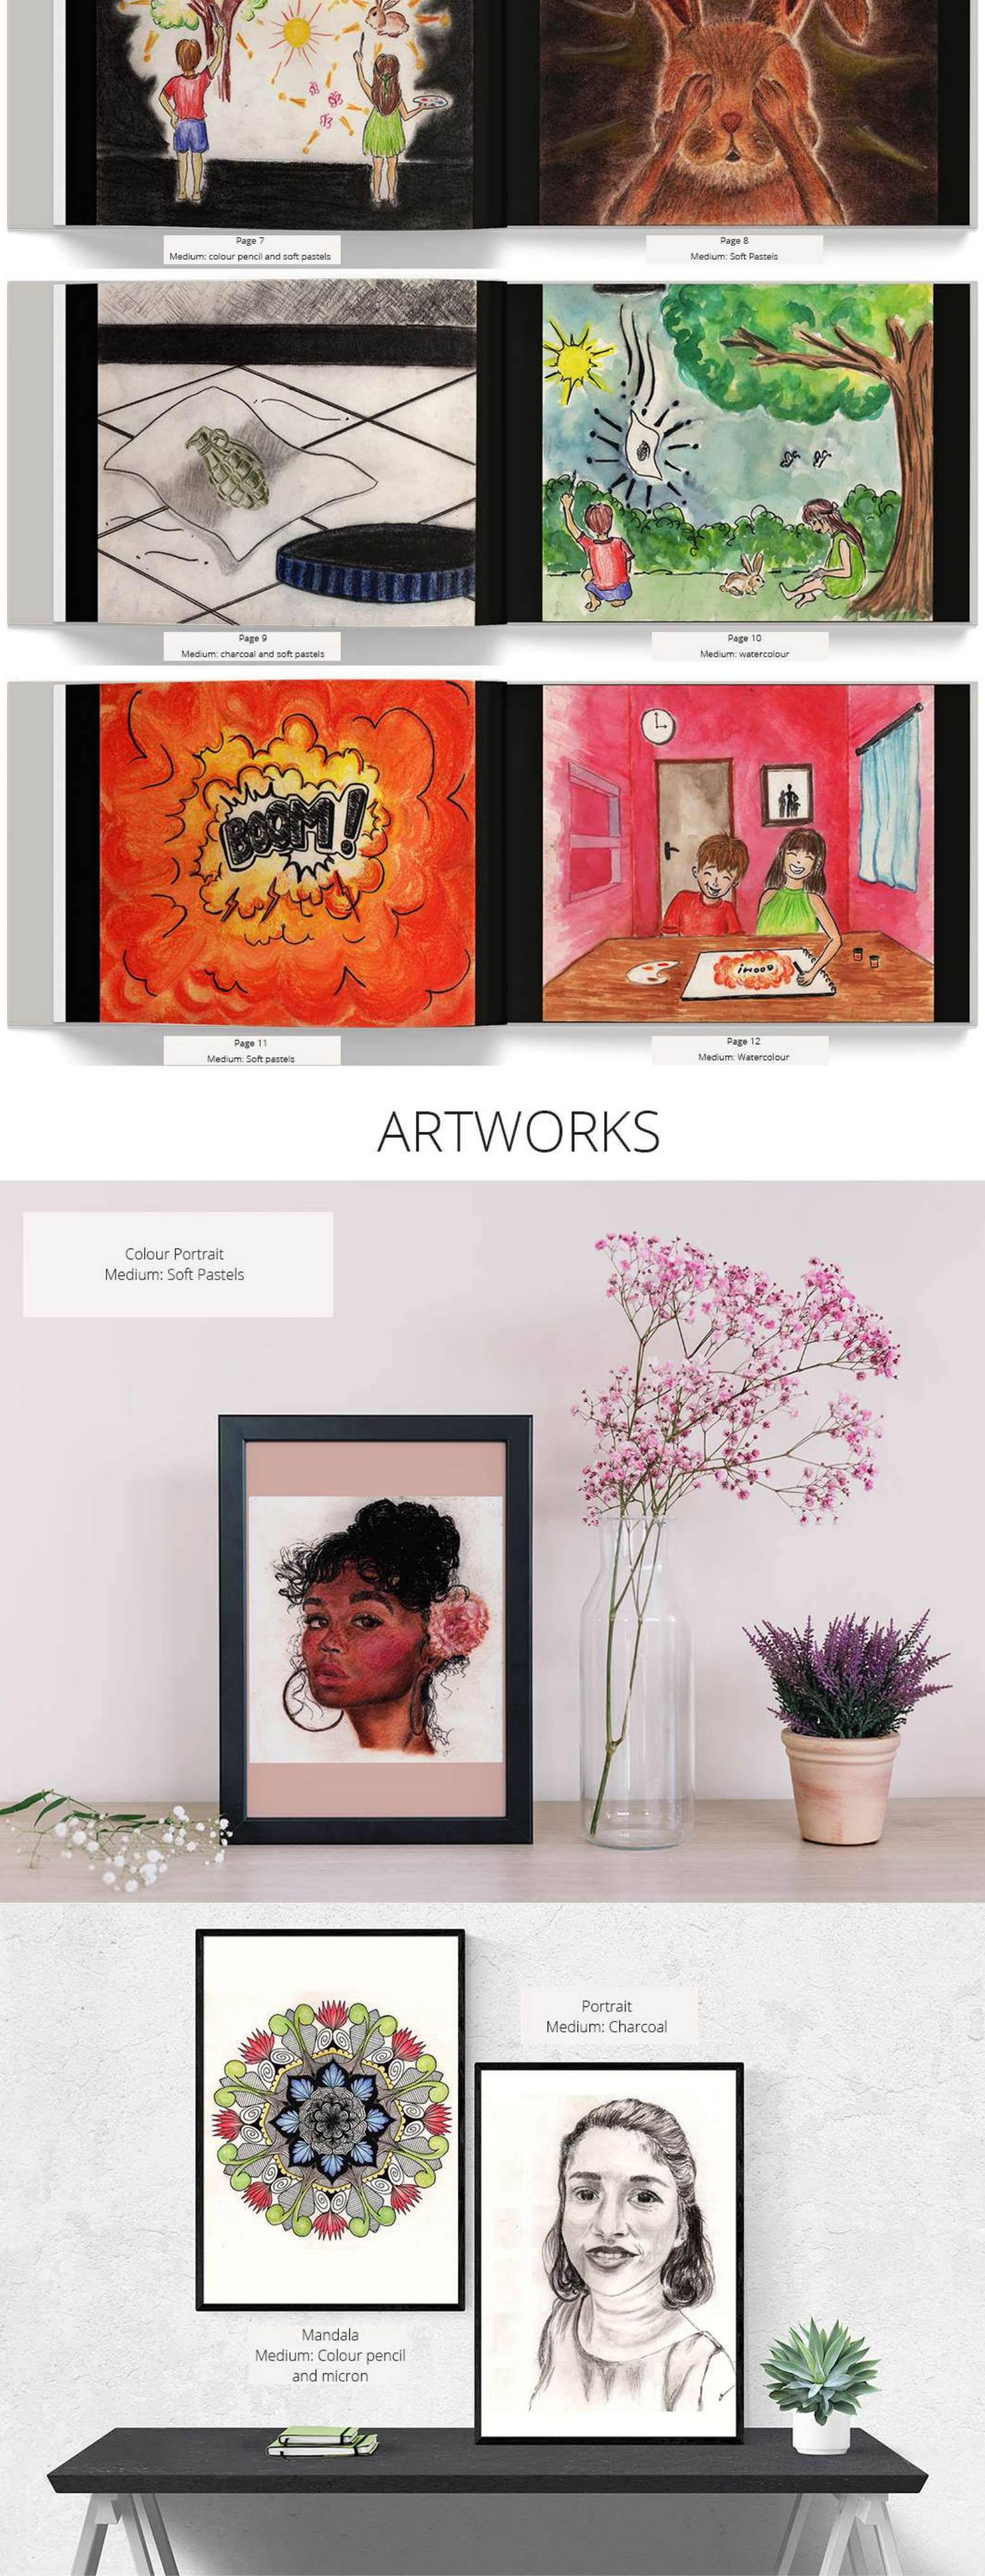

THE END

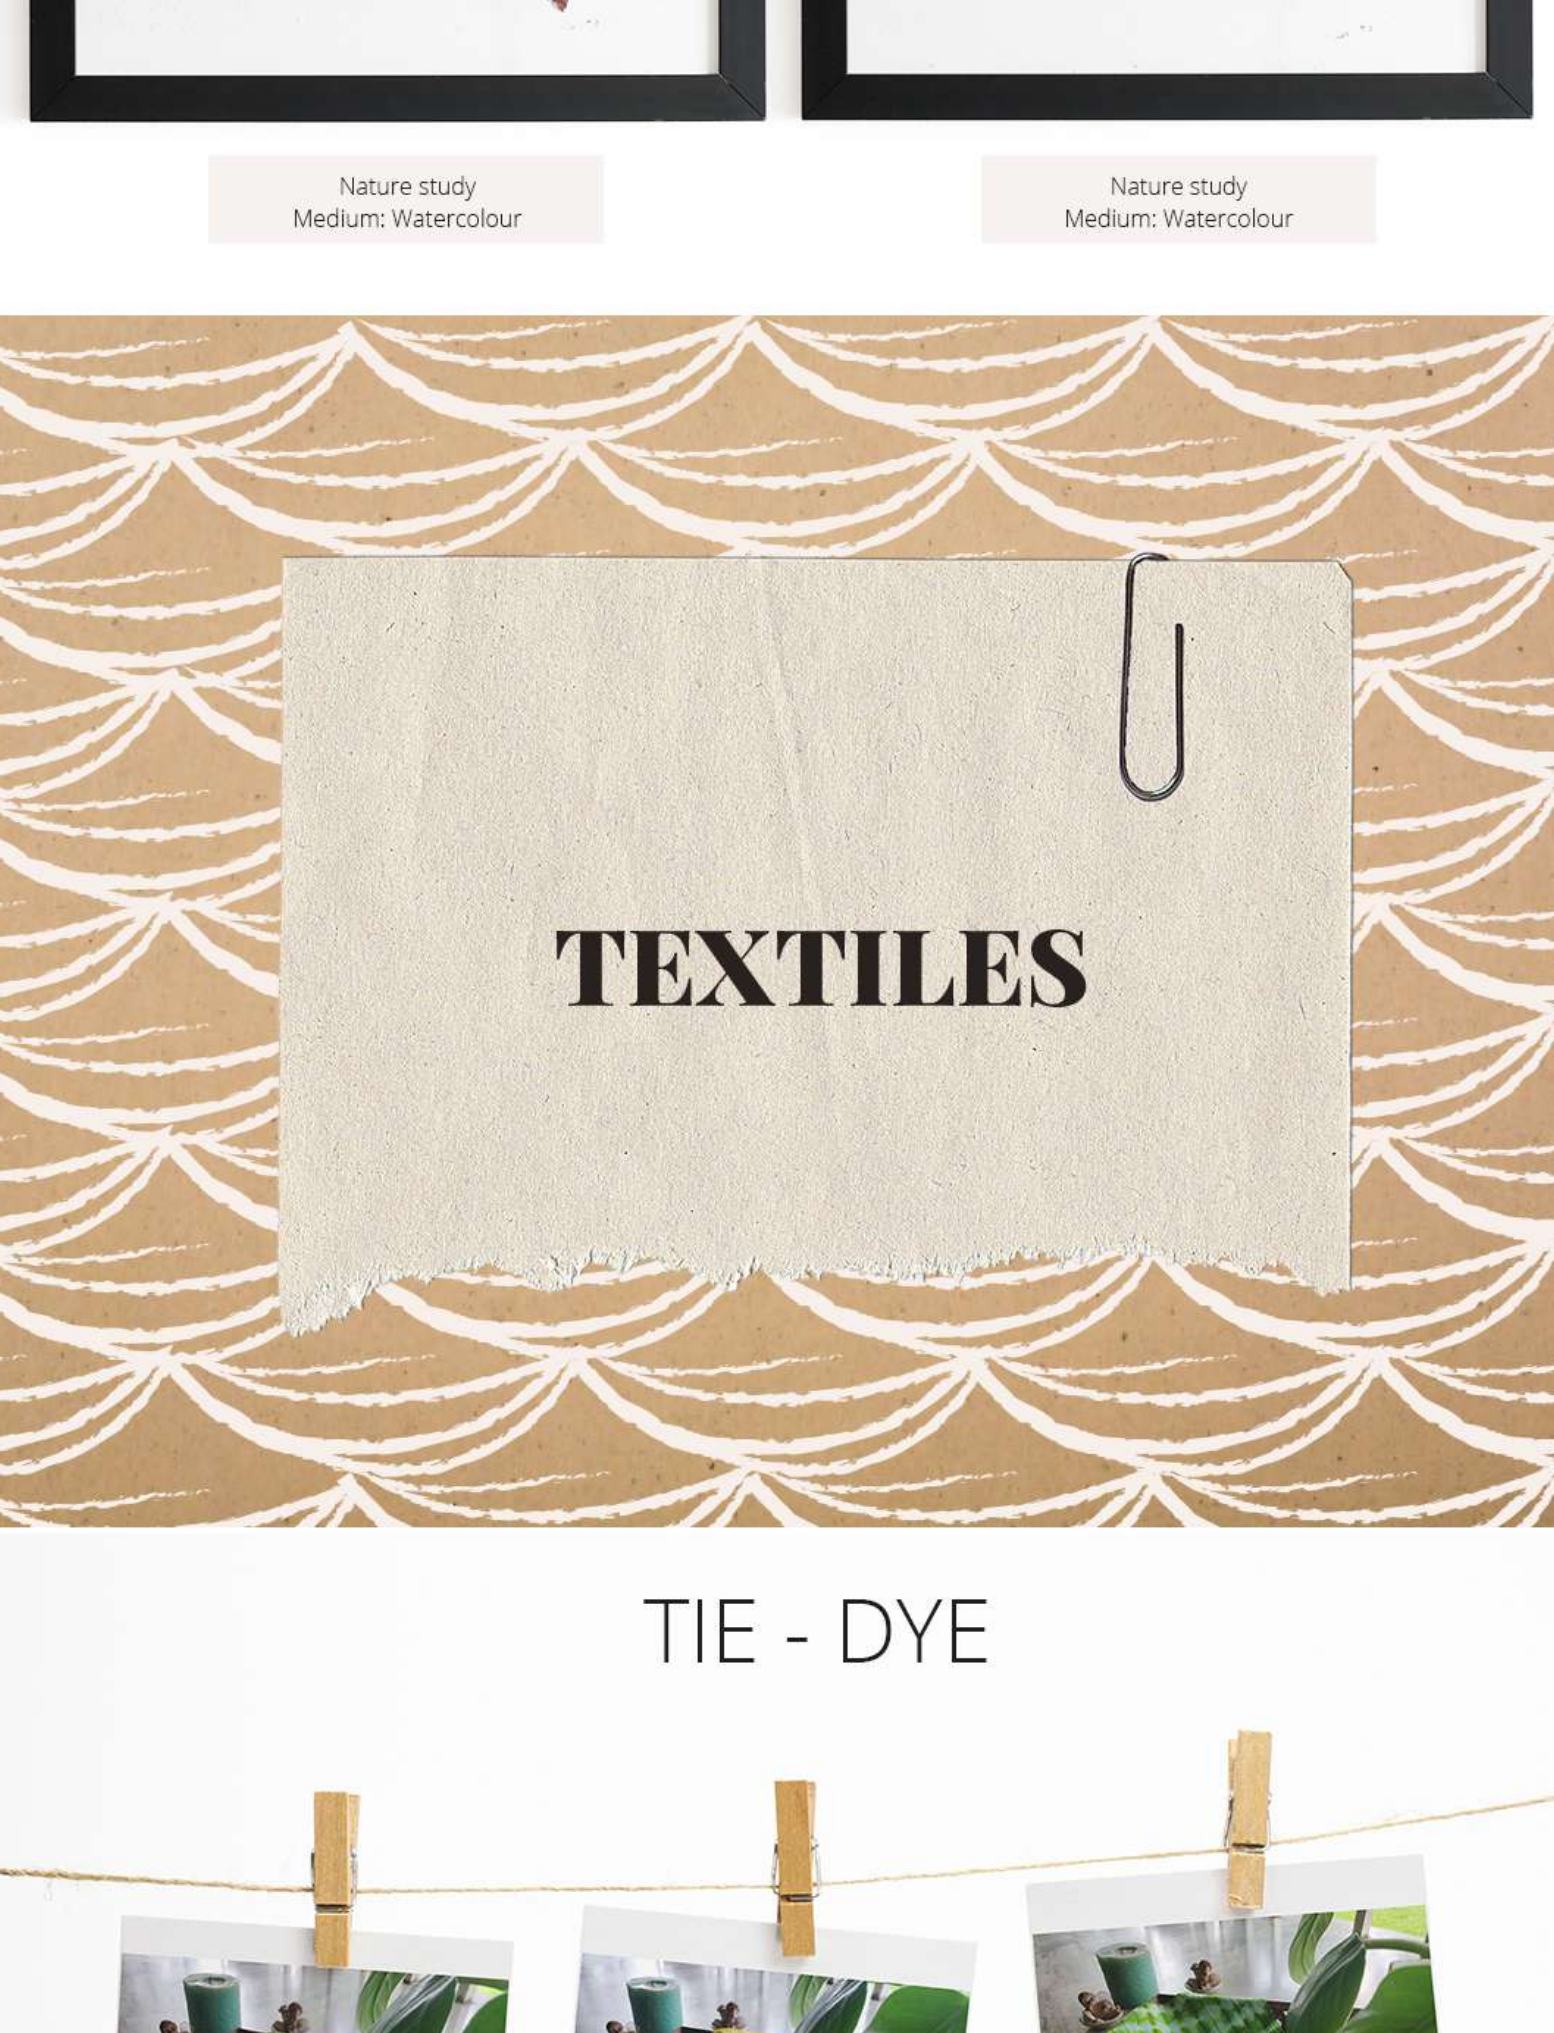

# HAND DRAWN WORKS

## PICTURE STORYBOOK

Picture storybook comprising of different mediums such as water-colour, softpastels, line drawing, charcoal, colour pencils and also mixed mediums. Since this is a picture storybook the viewer has to solve and understand the story by looking at each picture. It was part of the drawing subject activity. The title of the story is the main highlight and suspense.  
 Size: A3 (Storybook as a whole)
