Services I offer

- **Content Writing:** From Articles and Blogs to Homepage and About Us, I write content of all kinds. I can write as technically and formally as a University Scholar and as humorously as a Stand-up Comedian. Tailoring the style according to the need of the client is one of my strongest suits.

I can write on most of the niches but the ones I love writing about are Philosophy, Health & Wellness, Spirituality, Ayurveda, Linguistic, Nutrition and Self-Growth.
- **Proofreading and Editing:** Having worked as a Full-time IELTS Trainer, I can confidently claim that I can do justice to any document to render it error-free, whether it's a lexical, grammatical or contextual error. Honestly, it has become a second nature now. I have even done it for some big firms but since I was hired as a Ghost Writer, I am not allowed to share the names.
- **Song Writing:** I have worked as a Lyricist & Composer for *Satvic Movement* and produced 3 tracks for them. For what it's worth, I also write Poetry in Hindi and English Language.
