eNano-Tech, Monastir Tunisia - CEO, and Sales Director

Sept 2014 - Dec 2020

- Founded the agency around Web, eCommerce, and Mobile consultancy services in nearshore/offshore model.
- Built the strategy and recruited teams: going from 3 to 30 members in 3 years.
- Valorized the company, after 30% growth year to year, with new shareholders making it a member of a group of companies present on 3 continents (France + Switzerland, Tunisia, And Canada)
- Animated UI/UX and design thinking workshops with 4 members design-team, helping 10 clients get stunning User experience in their applications.
- Controlled backlogs as Product Owner with 20 clients who needed coordination expertise and team/Time/budget optimization.
- Improved the agility of the company by adopting tools for Project Management (Zoho Project, JIRA, Freedcamp, and Trello depending on clients' needs).
- Delivered more than 100 web/eCommerce solutions and more than 40 Mobile applications between 2014 and 2020

Calystene SA, Tunisia/France - Scrum Master, Tech lead

Jan 2012 - Aug 2014

- Lead the agile adoption with a team of 12 members (8 in Tunisia and 4 in France)
- Managed Backlogs clarification with Product Owner and Technical Director based in France.
- Put on place Sprints of 3 weeks with the incremental process, prepared deliverables, planned sprints, organized standup meetings and Sprints retrospectives.

- Contacted Physicians, nurses, and Sales Reps on regular basis to verify real-world healthcare institutions and clinics' usage of the solutions and problems encountered.

[Proxym Group, Sousse-Tunisia](#) - *Microsoft .net developer*

Jan 2010 - Dec 2011

- Designed and implemented 10 modules, developed for healthcare and patient management (EHR / EMR)
- Developed a module for planning bed occupations, with the ability to navigate graphically and put a patient in bed via Drag&Drop → Wow effect on Exhibition in Paris for Healthcare Management Solutions in May of 2010 helping to grow by 100% the adoption of the new solution.
- Adapted the Team Foundation Server (TFS) template, from CMMI (heavy and cumbersome) to 100% Agile custom-made template → Essential cornerstone to use Scrum on top of TFS (Project Management solution by Microsoft).
