About Me

Patience is not the ability to wait, but the ability to keep a good attitude while waiting

One minute of patience, ten years of peace. With love and patience, nothing is impossible. Patience and perseverance have a magical effect before which difficulties disappear and obstacles vanish.

I'm a graphic designer and video creator living in Davao Philippines, outside of my career I like doing things with my family like watching movies I also love to cook.

I will be glad to hear from you about a new project!

Cheers!
