## AKAREIKOU

I'm **Christine Villegas** also known as "Akareikou" my artist / designer name, A **multimedia artist** currently focusing on illustration, animation, photography, character voice acting and graphic design work.

I draw illustrations ranging from traditional to digital artworks of characters and or concepts. I can also make graphic design collaterals for you (logos, infographics, brochure, vector etc.). If you're looking for 2d animation, I can create simple short animations as well. Voice acting for characters is also one of my skills. I can voice young boys, little girls, teenage girls / boys, woman/lady, and senior characters.

Hope to work with you soon! Please check my online portfolio for my works:

# PORTFOLIO

*A place where I display my creations. A safe haven for my designs and artistic expression. Feel free to see my world.*

I enjoy creating illustrations and designs based on fantasy and other interesting concepts but I'm also passionate with doing designs with purpose, to convey and communicate important ideas. I mostly focus on illustrations and graphic design works but I also enjoy taking photos of people and places, I aspire to capture the beauties of life has to offer. Animation is an interesting field and I would like to further explore my animation skills. Voice acting is a recently discovered skill and I would love to further develop it along with my other skills.
