Meko Gas Cylinder Project Total spent 91456/-

So far, Utee Estate have so far engaged in a Single Project of buying Meko Gas to the employees. This project was proposed by employees during the Annual General Assembly of workers and included in the Project Plan for the Year 2019. The essence is to discourage the use of charcoal for cooking thereby protecting the environment from degradation and also pollution. Because the premiums are yet to build up, the project was divided into phases:

Phase 1: 20 employees have already benefited (in the month of August 2019)

Phase 2: 50 employees are set to benefit in the month of December 2019.

Mattresses Project

This project was seconded by employees during the Annual General Assembly of workers. It was put in plan as well to accommodate the employees demand but as second in the project ranking. This project will follow as soon as the second phase of Meko Gas is completed.

1parent Receiving Bursary

Comment by school fees grant beneficiary;

Charles Kungu says- "I really appreciate the support by LFJI with bursary and school fees revolving funds. I used to strain due to lack of enough money to educate three(3) of my sons. May LFJI improve more lives"

Worker capacity building

In 2019 - 30 employees, their spouses & children are acquiring driving/riding skills.

Computer Training – 25 workers have acquired computer application knowledge.

Planned - Tailoring, computer and Hairdressing skills.

Home Improvement Projects

A total of ksh 676,250/- has been used this is Revolving fund project which creates income earning opportunity i.e. chicken pens, or cowsheds and housing.

Feedback on project: - **George Mwangi.** "I really thank LFJI for the iron sheets. I improved my house by enlarging it and giving it a better look. I plan to build my son a small room when he matures."
